

We are technology solution professionals who act as an integrated strategic business partner with our clients by providing premier outsourced technology services. We believe it all starts with how we do what we do and primarily how we focus on our clients. We are "fanatical" about the quality of service we deliver to our clients and the value we provide.

It's easy for anyone to say great things about themselves, but we believe there's no better way to communicate our value than what our clients say about us.

So, what do our clients have to say about us?

*FPA Technology Services, Inc. has provided outsourced IT services to growing businesses since 1991. With FPA's "business first" approach, FPA prides itself on being a trusted technology advisor helping clients leverage technology to achieve their business objectives. FPA hires only the best and the brightest and with a variety of degrees and certifications. With FPA, it's about how we do what we do. It's about the value we provide to our clients. It's about removing the worry around IT. FPA effectively handles all of a company's technology needs, allowing our clients to focus on achieving their business objectives.*

**Business Before Technology™ - We Get IT!**

**Stu Jaffe, CPA - Kirsch Kohn & Bridge**

*"I wanted to share with you that your team has been doing a great job in transitioning from our prior consultant. We can't say enough about your teams' professionalism and knowledge in resolving issues is nothing less than impressive. FPA truly has a dedicated team and we are happy to be among your clients."*

**- Royal Paper Corp. (Distributor)**

*"It has been a pleasure working with you and your staff, and I can only rave over the high standards that you have maintained relative to our hardware and software."*

**- Crane Asset Management, LLC (Investment Advisor)**

### FPA's Core Values

1. Take Care of the Client
2. Take Care of Our Staff
3. Be Professional & Consultative
4. Document & Standardize
5. Build Something Bigger Than Ourselves

*"FPA always comes through quickly resolving our IT issues - including an ongoing problem that several other consultants had been unable to fix at our largest operating company. They're certainly our go-to IT company of choice!"*

**- Shapco (Property Management)**

*"From the moment they took over our network everything went flawlessly from virtually every aspect. To say we have been very impressed is an understatement."*

**- Adept Consumer Testing (Focus Group / Qualitative Research)**

**Frank Mullens, CFO/COO - Marketing Innovations**

*"FPA has been exactly what we needed - a true extension of our IT department. They are all in - sleeves rolled up - to tackle each challenge and opportunity as it arises. We could not have gotten through our move or MPLS implementation without them."*

**- The Search Agency (SEO Services)**
